Judging Criteria

College IPL Auction 2026 · how judges score each team, and how the winning team is decided

10	7	₹100 Cr	100	Average
IPL franchises	players per squad 1 WK · 2 BAT · 2 AR · 2 BOWL	purse per team max 4 overseas	points per judge, 7 criteria	of the judges decides the winner

Every team ends with exactly 7 players in the same shape (1 wicketkeeper, 2 batters, 2 all-rounders, 2 bowlers), so judges don't check *whether* a team has the right roles, but **how good, how well balanced and how well bought** its 7 players are. Each judge scores each team out of 100 on the seven criteria below, in steps of 0.5.

The seven criteria

CRITERION	POINTS	WHAT TO LOOK AT
⭐ **Overall Team Strength**	**25**	The quality of all 7 players: ratings, IPL records, proven match winners and stars. A squad with no weak link beats one with two stars and five fillers. **22–25** nearly all 7 are top-class · **16–21** strong core, one or two average picks · **10–15** a mix of good and weak · **0–9** mostly weak players
⚖️ **Team Balance**	**20**	Every squad has the same roles, so judge the balance *inside* them: batting and bowling about equally strong; left- and right-hand batters; pace *and* spin among the 4 bowling options (2 bowlers + 2 all-rounders); overseas players used where they add most. **17–20** no gaps at all · **12–16** one small gap (e.g. no spinner) · **6–11** clearly lopsided · **0–5** badly unbalanced
🔄 **Versatility**	**15**	Players who do more than one job: genuine all-rounders who bat *and* bowl, a keeper who opens or finishes, bowlers who can bat, players tagged 🔄 Versatile. More options = more ways to win. **13–15** several multi-skill players · **9–12** the 2 all-rounders deliver · **4–8** little cover · **0–3** one-dimensional
💰 **Value for Money**	**15**	Quality bought per crore: bargains, smart buys at or near base price, no wild overpaying. Unspent purse is **not** a bonus by itself; it only counts if the money was saved without weakening the squad. **13–15** great players at fair or low prices · **9–12** mostly fair · **4–8** a few costly buys · **0–3** paid far too much
🏏 **Batting Depth**	**10**	How far down the 7 can bat: openers, an anchor, finishers and power hitters; runs and strike rate; all-rounders and keeper who can bat. **9–10** bats deep · **6–8** solid top five · **3–5** thin · **0–2** weak
🎯 **Bowling Strength**	**10**	The 4 bowling options: wicket-takers, economy, death bowling, a spin wizard and a pace ace. **9–10** four strong options · **6–8** good attack · **3–5** one or two weak overs · **0–2** weak
🧤 **Wicketkeeping & Fielding**	**5**	The keeper's quality behind the stumps and with the bat; gun fielders and safe hands (🏃 🧤 tags). **5** top keeper and fielders · **3–4** good · **1–2** average · **0** weak
Total	**100**	

Where to find the facts: the app's **Reports** page has each team's squad, prices, spend and a **Team analysis** with a bar for every criterion. The bars and the hints on the **Judging** page come from the player ratings and auction prices. They are a guide, not a verdict: the judges decide the scores.

How the winning team is decided

1. After the hammer
The auction ends when every squad has its 7 players. Open **Reports** on the projector or a laptop.

2. Team pitch (optional)
Each team owner gets 1 minute to explain their squad and plan.

3. Score alone
Each judge scores every team on the 7 criteria, without discussing scores first.

4. Enter the scores
On the **Judging** page, each judge has a tab; type the scores in. Totals are added up for you.

5. Standings
The app averages the judges who scored. The highest average wins.

The result

- **Winner – 🏆 Auction Champions:** the team with the highest **average total out of 100** across all judges. Second place is the runner-up.
- **All judges score all teams.** The standings average whichever judges have scored so far and show which teams still have missing scores, so wait until every score is in before announcing the winner.
- Use the same scale for every team. If a judge sees they were too harsh or generous on the first team, adjust before the scores are final, not after the standings appear.
- Scores are final once the head judge announces them. Show the winner on the projector with 📣 **SHOW ON SCREEN** under 🏆 Auction Champions.

If two teams tie on the average

1. Higher average for ⭐ **Overall Team Strength**.
2. Still tied: higher average for ⚖️ **Team Balance**.
3. Still tied: higher average for 💰 **Value for Money**.
4. Still tied: the judges vote between the tied teams; the head judge has the casting vote.

Rules for judges

- Judge the **squad**, not the owners' bidding drama, team spirit or how loud the supporters were.
- A judge who is linked to a team (friend, classmate, owner) should say so before scoring; the head judge can ask them to skip that team, and the app then averages the other judges.
- Judge every team against the same players: the IPL ratings and records shown in the app, not personal favourites.
- Mystery players and wild cards count like any other player once bought.

Fun awards (separate from the score)

These don't change the winner. The Judging page suggests a team for each from the auction stats; the judges can accept the suggestion or pick another.

🏆 **Auction Champions** – top of the judges' table	💰 **Biggest Purchase** – most expensive player
💎 **Best Value Buy** – best player for the price	🤑 **Biggest Bargain** – top player bought at base price
🔥 **Biggest Bidding War** – most bids on one player	💀 **Purse Destroyer** – team that spent the most
🕵️ **Best Mystery Player** – best mystery buy	😂 **Funniest Purchase** – the judges' choice
Best Wild Card – best wild card buy	

> **After the ceremony: Reports → Exports** saves the final judging scores and awards as CSV, Excel or PDF, together with the squads and every sale.

Judge's Score Sheet

One sheet per judge · scores in steps of 0.5 · enter them on the app's Judging page afterwards

Judge: _____ Signature: _____ Date: _____

TEAM	⭐ STRENGTH / 25	⚖️ BALANCE / 20	🔄 VERSATILITY / 15	💰 VALUE / 15	🏏 BATTING / 10	🎯 BOWLING / 10	🧤 WK & FIELD / 5	TOTAL / 100
Chennai Super Kings								
Delhi Capitals								
Gujarat Titans								
Kolkata Knight Riders								
Lucknow Super Giants								
Mumbai Indians								
Punjab Kings								
Rajasthan Royals								
Royal Challengers Bengaluru								
Sunrisers Hyderabad								

Quick reminders

- **Strength 25** quality of all 7 · **Balance 20** bat vs bowl, left/right, pace/spin · **Versatility 15** multi-skill players · **Value 15** quality per crore
- **Batting 10** depth and strike power · **Bowling 10** the 4 bowling options · **WK & fielding 5** keeper and fielders
- Winner: highest **average** of all judges. Ties: Strength, then Balance, then Value, then a judges' vote.

Notes:
